

4 Day Healthcare Simulation Essentials by Harvard's CMS

Hosted by the ECU School of Nursing and Midwifery, Harvard's Center for Medical Simulation (CMS) will be running their flagship simulation faculty training course 'Healthcare Simulation Essentials' this April.

Featuring CMS' Debriefing with Good Judgment® and SimZones® approaches, this course prepares simulation program leaders and instructors to position simulation to solve real problems in healthcare organisations and health professional training. An ideal simulation training opportunity for medical colleagues.

CMS Faculty members who will be running the 4-day program include:

- Grace Ng, Senior Director of CMS Faculty.
- Jenny Rudolph, Senior Director of Innovation at CMS
- Walter Eppich, Professor of Work integrated Learning Research, University of Melbourne.

When

Tuesday, 29 April 2025 to Friday, 2 May 2025.

Location

Edith Cowan University
Joondalup
Perth, Western Australia

Cost

\$ 6,500 incl. GST per person attending
