

# WASHA Events 2019

The WA Simulation in Healthcare Alliance invites you to our September Education Event. Following the Annual General Meeting where we will welcome new committee members, we will look at using simulation to teach non-technical skills.

Whilst the term 'Non-technical' skills can be a divisive term to describe the range of essential and complex skills and behaviours we expect of our healthcare professionals, come and hear from those in our community on how they are using simulation to address non technical skills to improve patient care.

## SESSION DETAILS:

*Date* – Wednesday 25<sup>th</sup> September 2019

*Time* – 1600-1800 (refreshments will be provided)

*Venue* – UWA Health Professions Education Building, CNR Park and Crawley Ave, Nedlands

*Cost* - \$10

## REGISTRATION:

To secure your place visit - <https://www.trybooking.com/BFJDP>

The banner features a large graphic on the right consisting of three concentric, semi-circular arcs in shades of orange and teal. Inside these arcs are various illustrations of healthcare professionals in simulation environments: a person at a computer, a person at a table, a person at a desk, and a person at a workstation. On the left side of the banner, there is a circular logo for 'HEALTHCARE SIMULATION WEEK 2019'. Below the logo, the text reads 'September 16-20 Celebrating simulation professionals worldwide.' Further down, it lists social media handles and website information: '@HcSimWeek', 'ssih.org/HcSimWeek', and '#HcSimWeek19'. At the bottom left, there is a logo for 'SSH Society for Simulation in Healthcare'.
